

Telespazio Belgium Quality and Environmental Policy 2025-2027

Operating in a highly competitive market, **Telespazio Belgium** is committed to providing the highest level of performance services in the fields of Space Projects Operational Services and Space Engineering Support Services.

Telespazio Belgium is dedicated to continuously improving customer satisfaction by meeting and exceeding all commitments through the delivery of top-class results, while also considering the environmental impact of all its activities. Our main objectives are:

- **Enhance Employee Capability and Motivation:** continue to improve working conditions and career path development to boost employee capability and motivation.
- **Deliver Top-Class Services and Quality Products:** Provide customers with top-class services and quality products based on technological development in line with the TPZ group Innovation plans.
- **Improve Relations with Stakeholders:** Foster strong relationships with interested parties to achieve mutual benefits in line with our Compliance Programme.
- **Implement Business Control Procedures:** Apply business control procedures to all processes and projects to ensure efficiency and effectiveness.
- **Apply Risk Management Approach:** Support the achievement of industrial and sustainability objectives of the TELESPAZIO and LEONARDO group through a systemic risk management approach.
- **Commit to Continuous Improvement:** Commit to continuous improvement through its Quality and environmental Management System and empower employees to develop a culture of Quality and Sustainability.
- **Environmental Management:** Identify and evaluate the environmental aspects of our activities, products, and services, implementing in particular:
 - Monitoring of our GHG emissions (scope 1 and 2) through energy KPIs with the aim of reducing environmental footprint through sustainable practices
 - Optimal use of natural resources and materials to minimize waste and promote recycling.
 - Raise employee awareness.
 - Ensure compliance with all relevant environmental legislation and regulations.

By integrating quality and environmental management into its business strategy, **Telespazio Belgium** aims to achieve sustainable growth and create long-term value for its current and future customers, its employees, and its shareholders.
